

Underwritten at Lloyd's

Musical Instrument Insurance

Brookfield is a specialist at insuring musical instruments.

This means we can offer wider cover specifically designed to meet your needs.

Our aim is to live up to your expectations when a claim occurs.

Benefits of Brookfield's Musical Instrument insurance

- ✓ **Wider cover** – all protection provided on an “all risks” basis up to the full amount insured. This means fewer exclusions.
- ✓ **Worldwide cover** – your items are covered anywhere in the world, including on tour or during transport.
- ✓ **Replacement instrument cover** – keep playing whilst your own instrument is being repaired or replaced.
- ✓ **Depreciation cover as standard** – if an instrument is damaged it will not just be repaired; the policy also automatically includes payment for the loss of market value following repair or restoration.
- ✓ **Peace of mind** – you are covered by Lloyd's of London and more than 300 years of experience.

No fuss claims handling

Our specialist policy provides quick and efficient handling of claims. We consult you to select the instrument maker or restorer most suited for your instrument.

Claims examples

Damaged cello before tour

Days before the start of a tour, a cellist dropped his instrument which resulted in a crack. We rented a replacement instrument of equivalent quality, and the musician recovered his repaired cello at the end of the tour.

Theft at the parking meter

Having parked his car, a guitarist put his instrument down to find change to pay the meter. An opportunist snatched his instrument and ran away. We paid the full value of the instrument.
